- PAPER MACHINES. How to improve your bottom line with minor machine upgrades: A comprehensive view of available upgrade technology. H. Tausel. 7/8:32.
- PAPER MACHINES. Paper machine process troubleshooting - diagnostic techniques. A. Mardon et al. 4:18.
- PAPER PROPERTIES. Pressroom runnability: A comprehensive analysis of pressroom and mill databases. N.X. Deng et al. (T39) 2:42.
- PAPER PROPERTIES. Using dyes for improving the optical properties of high yield pulps. H. Liu et al. (T157) 10:25.
- PAPER QUALITY. Application of wavelet transformation for paper anisotropy. K. Kwong et al. (T56) 3:41.
- PAPERMAKING at Abitibi-Consolidated's Thorold Division. Z. Patakfalvi. 6:20.
- PAPERWEEK INTERNATIONAL 2008. Preview: EXFOR celebrates 50 years. 12:24.
- Preliminary Program. 12:27.
- Exhibition

- Floor Plan. 12:36. Exhibitor Booth Numbers. 12:38. Exhibitor Listings. 12:39.
- PAPERWEEK INTERNATIONAL REVIEW. More than 5,000 on hand for PaperWeek International 2007. W.R. Wood. 3:12.
- Welcoming Remarks (excerpts). S. Travers. 3:13. John S. Bates Memorial Gold Award. 3:13. PAPTAC awards ceremony. 3:15.
- Forest industry is a "powerhouse!" D. O'Brien. 3:17. Mill Manager's Forum: The impact of the Kyoto Protocol: Opportunity or Cost? A. Orzechowska. 3:19. Cutting edge ingenuity. H. Lynch. 3:20. Prepare for industry's transformation, warn CEOs. M. Meloche-Holubowski. 3:21.
- PARTITION of soluble and precipitated oxalate and its implication on decreasing oxalate-related scaling during peroxide bleaching of mechanical pulps. L. Yu et al. (T6) 1:39.
- PEOPLE. Looking forward to the opportunities - Interview with Dr. Ian de la Roche. A. Orzechowska. 3:25.
- PILOT-scale Papdry(tm) drying of linerboard. M. Sadeghi et al. 5:26.
- PILOT-SCALE wet web surface treatment of newsprint. I.I. M.L. Ajersch et al. (T146) 9:27.
- POINT OF VIEW. No time to waste - PaperWeek International 2008. M. Dumontier. 12:70.
- POTENTIAL of refining and dispersing to develop recycled fibre properties. C. Le Ny et al. (T35) 2:38.
- PREAMBLE to innovation. Special to P&PC. 2:18.
- PREDICTION of kraft mill total reduced sulphur emissions using vapour-liquid equilibrium theory. A. Jensen et al. (T124) 6:41.
- PREPARE for industry's transformation, warn CEOs. M. Meloche-Holubowski. 3:21.
- PRESSROOM runnability: A comprehensive analysis of pressroom and mill databases N.X. Deng et al. (T39) 2:42.
- PRINT QUALITY. Human perception of print mottle: what does the eye see? J.-P. Bernié et al. (T172) 11:32.
- PROCESS CONTROL. Controlling black liquor "viscosity" to improve recovery boiler performance. F.D. McCabe et al. (T187) 12:49.
- PRODUCT DEVELOPMENT. Biorefinery opportunities for the Canadian pulp and paper industry. M. Towers et al. (T109) 6:26.
- PROPERTIES. A new model for maximizing the bending stiffness of a symmetric three-ply paper or board. S. Navaee-Ardeh. (T81) 4:45.
- PROPOSAL for a mill: Workers' compensation case management Framework for a Cost-Effective Program. J.E. Little. 11:46.
- PULP BLEACHING. ECF bleaching of softwood kraft pulp: Understanding the potential of extraction. H. Suess et al. (T139) 7:8:41.
- PULP FURNISH. The influence of pulp furnish components on the property of supercalendered paper. Y. Gao et al. (T11) 1:45.
- PWC 20th ANNIVERSARY - Global Forest and Paper Industry Conference. A. Garner. 7:8:26.
- Q**
- QUALITY CONTROL. Quality control system validation by using a web analysis. M. Mäkelä et al. (T199) 12:61.
- R**
- REAL work @ home. D. Davies. 9:41.
- RECENT advances in online caliper measurement. S. Nuyan et al. (T177) 11:38.
- RECOVERY BOILERS. Maximizing recovery boiler performance. D. Burton et al. 2:13.
- RECYCLING. Potential of refining and dispersing to develop recycled fibre properties. C. Le Ny et al. (T35) 2:38. The recycling challenge - Minas Basin does OCC. C. McCormick. 11:15.
- REFINING. Forces during bar-passing events in low consistency refining: Effects of refiner tram. B. Prairie et al. (T153) 9:34.
- REMEMBERING the Pulp & Paper Pavilion at Expo 67 - 40 years later. Z. Patakfalvi. 9:24.
- RESEARCH. EvaluTree - A new resource for the pulp and paper industry in Canada. A. Goodison et al. 5:18.
- ROLL COVERS. Innovations in paper machine rolls and roll covers. I. Rapoport. 3:31.
- RUNNABILITY. Dryer fabric design and aerodynamic effects. I. Lang et al. (T134) 7:8:34.
